

DR. ANDREW P. HARTMAN

Dr. Andrew Hartman specializes in surgery of the shoulder, elbow and hand. In addition to completing his orthopaedic surgery residency, he has also completed an additional year of fellowship training in upper extremity surgery at the University of California at San Diego. Dr. Hartman insures he is utilizing the most innovative and effective treatments in patient care. He believes the combination of surgical expertise and mastery of state of the art techniques is essential to optimal patient outcomes and improving quality of life.

Dr. Hartman is committed to advancing the field of orthopaedics. For the past four years, he has been an instructor at the internationally renowned San Diego Shoulder meeting. Dr. Hartman frequently travels nationally to collaborate and train other orthopaedic surgeons in operative techniques, particularly shoulder replacement surgery. Dr. Hartman works closely with his rehabilitative team to customize treatment programs and utilize the most current methods in order to restore preinjury function and allow a quick return to activities.

A love of science and the complexity of the human form drew Dr. Hartman to the field of medicine, however he finds that patient care is the most rewarding aspect of his practice. When not in the office or operating room, Dr. Hartman enjoys spending time with his family, surfing, and traveling.

Orthopaedic Specialists of North County (OSNC), was founded in Oceanside in 1965 and incorporated in 1973. Over the years, we have treated multi-generations of families, including parents, grandparents and great-grand-parents for their orthopaedic injuries and ailments.

Our 13 board-certified physicians care for accident, sports - or work-related injuries, replacing total joints, or relieving chronic or acute pain. They give patients more lifestyle choices by offering the latest procedures, to help them stay active. For the convenience of their patients OSNC also offers services such as imaging, urgent care, and physical therapy to help patients recover; regain body strength quicker with less locations to visit.

For more information on our doctors and services, please call us at 760-724-9000, or log onto www.orthonorthcounty.com.
